亞勢備份軟件開發有限公司 (Incorporated in the Cayman Islands with limited liability) (Stock Code: 8290)

# INTERIM RESULTS ANNOUNCEMENT FOR THE SIX MONTHS ENDED 30 JUNE 2017

# CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the "Directors") of Ahsay Backup Software Development Company Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

#### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended 30 June 2017

#### 1. GENERAL

The Company was incorporated in the Cayman Islands on 10 April 2015 as an exempted company and registered in the Cayman Islands with limited liability under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The Company's shares were first listed on the Growth Enterprise Market (the "GEM") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 8 October 2015 (the "Listing").

The Company is an investment holding company and its subsidiaries are principally engaged in the provision of online backup software solutions to clients via internet.

The condensed consolidated financial statements are presented in Hong Kong dollars ("HK\$"), which is the same as the functional currency of the Company.

#### 2. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with Hong Kong Accounting Standard 34 *Interim Financial Reporting* issued by the Hong Kong Institute of Certified Public Accountants as well as the applicable disclosure requirements of Chapter 18 of the Rules Governing the Listing of Securities on the GEM of the Stock Exchange.

The amounts included in these condensed consolidated financial statements have been computed in accordance with accounting policies which conform with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") that is applicable to interim periods. However, it does not contain sufficient information to constitute an interim financial statements as defined in HKFRSs.

The condensed consolidated financial statements should be read in conjunction with the 2016 Financial Statements.

#### 3. PRINCIPAL ACCOUNTING POLICIES

The accounting policies used in the preparation of these condensed consolidated financial statements are consistent with those used in the preparation of the 2016 Financial Statements except for the new policy for capitalising the development cost as intangible assets. The accounting policy for research and development expenditure is set out as below.

#### Intangible assets

Internally-generated intangible assets – research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development activities (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;

- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible asset is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses (if any), on the same basis as intangible assets that are acquired separately.

The condensed consolidated financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

In the current interim period, the Group has applied, for the first time, the following amendments to HKFRSs issued by the HKICPA that are relevant for the preparation of the Group's condensed consolidated financial statements:

| Amendments to HKAS 7  | Disclosure Initiative                                    |
|-----------------------|--|
| Amendments to HKAS 12 | Recognition of Deferred Tax Assets for Unrealised Losses |
| Amendments to HKFRSs  | Annual Improvements to HKFRSs 2014-2016 Cycle            |

The application of the above amendments to HKFRSs in the current interim period had no material effect on the amounts reported and/or disclosures set out in these condensed consolidated financial statements.

#### 4. **REVENUE AND SEGMENT INFORMATION**

Information reported to the directors of the Company (the "Directors"), being the chief operating decision maker ("CODM"), for the purpose of resources allocation and assessment of segment performance focuses on types of goods or services delivered or provided. No operating segments identified by the CODM have been aggregated in arriving at the reportable segments of the Group. During the six months ended 30 June 2017, the Group had no material change in segment assets and segment liabilities.

In particular, the Group's operating segments under HKFRS 8 Operating Segments are as follows:

| Online backup software and other services segment | _ | Software license sales and leasing, provision of software upgrades and<br>maintenance services, sales of hardware devices, and provision of other<br>services |
|---|---|---|
| Information sharing services segment              | _ | Provision of information sharing services   |

Segment results represent the profit earned by each segment without allocation of other income and other gains and losses that are not directly attributable to segments as disclosed in the below table. This is the measure reported to the CODM for the purposes of resources allocation and performance assessment.

The following is an analysis of the Group's revenue and results by reportable and operating segment of online backup software services and information sharing services:

- \* Included in other expenses
- <sup>#</sup> The Group's research and development expenditure incurred and recognised fully as expense are mainly employee related costs. In the opinion of the Directors, the employees who are engaged in research and development activities are also responsible for provision of maintenance services to the existing customers of the Group in daily operation. For the period ended 30 June 2016, the total staff costs attributable to these employees who performed the above functions were approximately HK\$6,916,000. Given there is no reliable basis to allocate these staff costs directly attributable to research and development activities, any arbitrary allocation of such expense for disclosure of research and development expense is considered misleading.

For the period ended 30 June 2017, with the update on the Group's internal system interfaces, time spent on the research and development activities can be separated out and allocated to research and development costs. In addition, as set out in note 12, certain research and development costs are recognised as intangible assets during the period.
